Program Delivery Method: Wed/Sat Group = Wed: virtual only/Sat: virtual or onsite / Program Duration: 7 weeks

Program Delivery Method: Night Group = Virtual Only / Program Duration: 11 weeks

**Required course materials and technology resources not provided by the institution:** students must have either a laptop, iPad, or tablet to use in the classroom; access to a printer and scanner (or a scanner app); a functional email address for receiving class materials; and a valid Gmail account to submit documents virtually. In addition, for virtual classes, students must have a web camera and microphone and a strong/reliable internet connection (and could utilize a desktop computer, if they wish).

### PROGRAM OUTLINE

Admission Requirement: None

Career Occupation: This introduction program is comprised of the first two courses of the Natural Nutrition Diploma Program and provides a general understanding of the links and connections between health and nutrition. Successful completion of the Introduction to Natural Nutrition Program may be used to transfer to the Natural Nutrition Diploma Program (provided the student meets the program's Admission Policy).

Learning Objectives: Upon completion of the Introduction to Natural Nutrition Program, the successful student will have demonstrated the ability to recognize the link between nutrition and optimal health and develop diets for individuals based on their unique nutritional needs.

Method(s) of Evaluation: May include a combination of a quiz, test, presentation, in-class demonstration, and/or a research project.

Completion Requirements: To successfully complete the Introduction to Natural Nutrition Program and receive a completion certificate, a student must have an overall average of 80%. A student's overall average is calculated using a formula with a weighted scale that takes into consideration the amount of hours of each course. Students are expected to attend all classes, be on time, and stay for the full duration of the class. If a student misses 50% of any course, the student must retake the course and pay any applicable fees. All students must meet the above requirements.

Program Organization		
	Title of Course	# of Hours
	Fundamentals of Nutrition (Part 1)	24.5
	Fundamentals of Nutrition (Part 2)	17.5
